

Mirox Sanilam

UNIQUE MIRROR
FEATURING A 10-YEAR
NO-CORROSION WARRANTY

Mirox Sanilam is a double-sided, highly moisture-resistant mirror for indoor applications where humidity can cause mirror corrosion, such as bathrooms, saunas, swimming pools and more. Mirox Sanilam consists of two Mirox MNGE mirrors bonded together with an adhesive. AGC guarantees Mirox Sanilam (the final product) will remain corrosion-free for 10 years from the date of delivery, provided it was processed by an AGC Certified Processor. The full, up-to-date list of Certified Processors is available on www.yourglass.com.

Unique mirror featuring a 10-year no-corrosion warranty

MIROX SANILAM

What's so special
about it?

What does this mean
for you?

-
- | | |
|--|---|
| Superb corrosion resistance in moist and humid environments | <ul style="list-style-type: none">– The perfect solution for applications involving a significant risk of corrosion due to high levels of moisture¹, e.g. bathrooms, saunas, swimming pools, fitness centres, etc.– AGC's 10-year no-corrosion warranty, provided Mirox Sanilam was processed by an AGC Certified Processor |
| High durability | <ul style="list-style-type: none">– Mirox Sanilam meets requirements even more stringent than those defined for standard mirrors in EN 1036-1² |
| Environmentally friendly product | <ul style="list-style-type: none">– Mirox Sanilam preserves indoor air quality by emitting very low levels of volatile organic compounds (VOCs) and formaldehyde |
| Fast and easy cutting | <ul style="list-style-type: none">– Cutting Mirox Sanilam is easier than cutting laminated glass with a PVB or EVA interlayer– Compared to a laminated glass, this reduces the cutting cycle from 60 seconds to 15 seconds only. |

1. Mirox Sanilam cannot be partially or fully submerged in water.

2. Glass in building - Mirrors from silver-coated float glass for internal use.

Processing options

MIROX SANILAM

Cutting	Straight or circular
Shaping and edge finishing	Edge-grinding (No round "C" profile)
	Bevelling (No round "C" profile)

Mirox Sanilam consists of two 3mm Mirox MNGE mirrors bonded together with an adhesive. Dimensions: 225 x 321 cm.

Mirox Sanilam cannot be considered a safety product under European standards.

How to become a Certified Processor

- Download the Mirox Sanilam Warranty Procedure from www.yourglass.com.
- Fill in the Authorisation form.
- Fill in the Approval form. Read the Mirox Sanilam Processing Guide. Sign both documents.
- Send these documents to your local AGC representative.
- Send samples* of processed Mirox Sanilam to AGC for testing.
- If the test results are positive, you will become a Certified Processor, i.e. you will be authorised (for an initial period of six months) to offer the 10-year no-corrosion warranty.
- After six months, you will need to send new samples to AGC for testing in order to renew your certification.

For more information contact your local AGC representative or visit www.yourglass.com.

* As the authorisation is only valid for one type of edging, please send two samples for each type of edging for which you are requesting authorisation.

AGC Glass Europe provides technical support to help you determine the best glass components for your applications. Please contact the AGC Technical Advisory Service (tas@eu.agc.com) for more information (prior to using this e-mail address, you need to register on www.yourglass.com).
